ELTO is a proactive move by the insurance industry to meet it's obligations to help those who have suffered injury or disease in the workplace to identify the relevant insurer quickly and efficiently. At the heart of this process is a centralised database - The Employers' Liability Database (ELD).

Covea Insurance has joined ELTO and as such are required to supply policy data to the ELD. Below is a list of all company names including the full name of any subsidiary company along with the Employer Reference Number(s) (ERN) to be insured by this policy.
